

Georges River Land Trust
**Watershed Fund
Endowment Campaign**

The Georges River Land Trust has created an endowment, the Watershed Fund, to ensure organizational strength for the future. An endowment can deliver a stable, dependable, perpetual source of funding to assure protection of the St. George river, wildlife habitat, working farms and forests, and our quality of life in Maine.

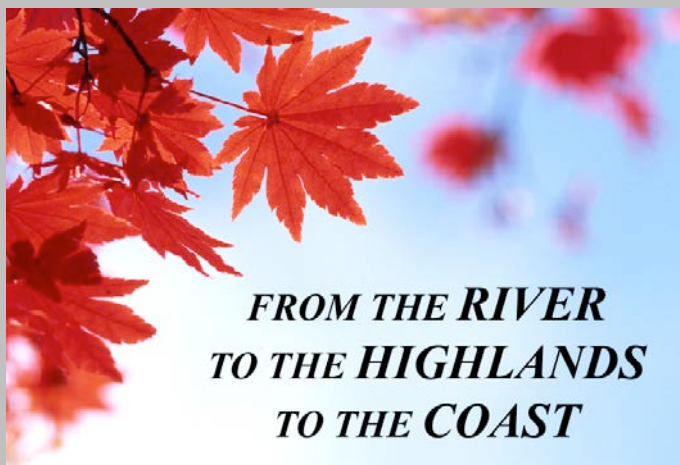

The lands we conserve today require our care and stewardship in perpetuity. We have accepted this responsibility and need your help to assure these lands will always be protected, monitored, and provide their resources for future generations.

A gift to GRLT's Watershed Fund will:

- Leave a lasting legacy in your name.
- Ensure GRLT will be a vibrant organization now and in the future.
- Recognize you as a supporter of conservation in your lifetime and beyond.

Please give a lasting legacy today!

*Working with communities to
conserve special places.*
